

adTENT AIR PREMIUM WALL PRINT 5x5

DPI Resolution: 120 ppi - 1 :1 scale

File format: PDF

Color: CMYK - Coated FOGRA39

- flattened file (no layers)
- no print marks
- no overprint attribute
- no bleeds

- do not change the size of the template

- convert fonts to curves
- suggested black color parameters for backlighting: C40 M40 Y20 K100

Remove the red and blue lines before saving the files. Leaving the line on will result in it being printed as a design element! In order to properly display the advertisement, all important elements should be inside the protective area marked with **red line**. Background and graphics must fill the entire printable area marked with **blue line**. If there is no fill between the red and blue lines, a white frame will appear on the printout.

Download and work on the graphic design template on the next page of this PDF. If there is more than one, prepare the projects in separate files.

Guideline:

— Print area

— Protection area
(place here elements that you not want to be cut, such as logos or text). Remember to remove all lines from the project.

The diagram shows a cross-section of a tent's side wall with a door opening. The interior of the tent is outlined in red, and the exterior is outlined in blue. The door opening is a semi-circular arch. The text is centered within this arch.
